

## COMPLETE QUIK-DISCONNECT RISER ASSEMBLIES

- ◀ Direct to you from Uni-Spray, made exactly to your specifications and ready to install.
- ◀ We offer a full range of our own exclusive Quik-Disconnect components in a full range of sizes, including premium-quality PVC, CPVC, PolyPro, Kynar and stainless steel pipe.
- ◀ To give you total design flexibility, we can custom bend the pipework, providing smooth flow without extra fittings, to precisely meet your design configuration.
- ◀ To simplify your ordering process, we offer over 20 design configurations with separate worksheets for each. The worksheets allow you to enter all of the dimensions, design parameters, selection and positioning of components in a simple, fill-in-the-blank format.
- ◀ If you don't see exactly what you want, send us your own drawing for a quotation.
- ◀ When we receive your completed worksheet or drawing, our engineers will review it for accuracy, and we will provide with a detailed quote.

*Exclusive to Uni-Spray, our formed risers eliminate the need for expensive glued couplers. In addition, smooth bends increase fluid flow and prevent material buildup.*
